

# MISSING CHILDREN, MYSTERIOUS DOLL

POPPY BELL

A 12 year old female, went missing yesterday along with her two friends friends Zachary Barlow and Alice Magnaye. Last seen Friday night, as they went to bed, their parents discovered that their beds were empty in the morning. Poppy left a note saying she would be back that night but has not returned, and all descriptions of 3 kids seen without grown ups have matched the pictures perfectly. Poppy's mother was not just missing Poppy, but a china doll that she bought at a yard sale was also missing. The china doll was kept in a glass cabinet and was gone along with Poppy. A bus driver said he had 3 kids on his bus, one carrying a doll. Poppy's mother is certain that there is a connection between the missing doll and Poppy disappearing. Her mother said that Poppy was having nightmares lately about the doll. Poppy's brothers say that the 3 children play an everlasting game where the doll is involved and is called The Queen. Poppy's brothers report that the china dolls eyes had been closed and then strangely opened. Is the doll alive? If so, where is Poppy and what is Poppy going to do with it?

ZACHARY BARLOW

Disappeared the same day as Poppy he also left a note, the note said, "Got up early. Gone to play basketball. Might not be back for dinner. " He wasn't back for dinner and he wasn't back for bed. Zach's father thinks Zach ran away because, he throw out all of Zach's toys for his game thinking he was too old. Zach has been acting up since that and got really mad at his dad, and that his dad was moving back in with them. Zach's parents had been separated but have gotten back together and Zach does not like his dad. Is that why Zach ran away or does it all come back to the doll and his friends. There have been reports of two stolen bikes, a missing boat, and a broken in library all on the same day. The kids stopped to eat at a store called Donuts and a dinner. They were caught on camera running across the highway and into the woods where they got of the bus and went to the Donut store for breakfast. Witnesses say they saw those kids with a doll and some say they saw a 4th kid with blonde hair like the doll. It comes back to is the doll being alive. There was a sack found with ashes and bones in it that were inside the doll is the doll made of human bones of a dead girl that people can see?

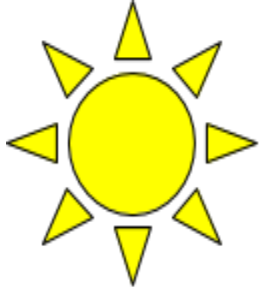

Alice Magnaye's is a 12 year old in the same grade with Zach and Poppy, they have been best friends forever. Alice has been very frustrated with Zach because he stopped playing their game that they have always played since they met. Zach didn't tell Alice or Poppy that the reason he is not playing the game is because his dad threw away all of his toys. Alice has been being rude to people including her friends and her grandmother. The grandmother says. "Poppy and Alice have been playing without Zach, and almost everyday they play their game, they take the doll out, take off her head, and look in the bag of bones and ashes." The bikes that were stolen were in East Liverpool in Ohio. People are searching for the kids there, and are close to finding them.
