In KM4, we have been sharing our **independent projects**. First, we brainstormed all of the things that we were curious about. We had discussions about what would make a good topic and what would be too general or overwhelming. Requirements included four paragraphs written on the topic, including one paragraph that explained why we were interested in our chosen topic. Some of us decided to work in partnerships, delving into bigger concepts. After doing our research, we presented our topic to the class. Presentations ranged from sideshows, to dance lessons to "fun facts." We learned so much from our classmates!

Please see the list of topics below and visit out bulletin board outside of our classroom for more visuals!

Mei- Clouds Camilo- The Berlin Wall Ethan- The Titanic

Brandon- Greek Mythology Finn- Animation Chloe- Rain Forest Mammals

Rachel- J.K Rowling Jack- The Races of Middle Earth Xavier- Sushi
